

NORTH AMERICAN LUBRICANTS, CO.

Puratech Good Gear

Puratech Good Gear Oils are premium multi-purpose, extreme pressure, automotive and heavy-duty gear lubricants. They are specifically designed and recommended for use in final drive hypoid axles found in modern passenger cars, heavy-duty trucks and busses where an API performance level of GL-5 is required. They also meet the performance requirements of Military Specification MIL-L-2105C.

Puratech Good Gear Oils are formulated with premium base stocks and select anti-oxidation, anti-corrosion, anti-rust, anti-foam and wear preventative additives. Superior thermal and oxidative characteristics resist thickening from extreme operating temperatures. They provide excellent load-carrying ability, oxidation stability and wear resistance under severe service conditions.

Puratech Good Gear Oil 80w-90 is also formulated with LS (limited-slip) additive, required in some passenger car and light-truck applications.*

Puratech Good Gear Oils are recommended for use in cars, trucks, busses, on and off-highway equipment, agriculture, mining and marine applications.

** Many limited-slip differentials require the manufacturer's specified gear lubricant or supplemental additive. Refer to the owner's manual for specific requirements.*

Puratech Good Gear Oil **TYPICAL INSPECTION TESTS**

SAE Grade	80w-90	85w-140
API Service	GL-5	GL-5
Lbs./Gallon	7.5	7.5
Pour Point, °F	-15	10
Flash Point, °F	410	425
Viscosity Index	92	87
Viscosity cSt @40°C	150	385
Viscosity SUS @ 100°F	760	1950
Gravity, API	25.0	23.5
Sulfur %	1.9	2.0
