### ***Puratech Multi-Vehicle Syn-Blend ATF***

Puratech Multi-Vehicle Syn-Blend ATF is formulated with a special blend of high-quality synthetic and mineral base stocks with an advanced additive system that provides ultimate protection and performance for automatic and power shift transmissions. It meets or exceeds DEXRON® III (H) (and earlier DEXRON® specifications), MERCON®, MERCON® V, Caterpillar TO-2 and Allison C-4 performance requirements. Puratech Multi-Vehicle Syn-Blend ATF is also recommended for service fill in transmissions including; Chrysler ATF 7176 +3 or ATF +4 fluids, Honda, Acura, Toyota, Nissan, VW, Audi, BMW, Hyundai, Saturn, Mercedes-Benz, and Jeep. Puratech Multi-Vehicle Syn-Blend ATF is not recommended for MERCON® SP, DEXRON® VI, or Ford Type F applications or recent vehicles equipped with continuous variable transmissions (CVT's).

Puratech Multi-Vehicle Syn-Blend ATF is formulated to provide protection that meets or exceeds the highest performance standards in the industry. The specially balanced additive system provides:

- Superior wear protection
- Excellent frictional properties for smooth shifting
- Excellent anti-shudder performance
- Excellent compatibility with seal material to prevent leaks
- Protection against varnish and sludge formation
- Superior thermal stability and oxidation resistance
- Outstanding low-temperature performance

Puratech Multi-Vehicle Syn-Blend ATF is designed for use in automatic transmissions in most domestic and import passenger cars, SUV's, and light trucks. It is specially formulated to provide one fluid for multiple applications to reduce inventory costs, limit misapplications and minimize expensive chemical treatments. Carefully balanced friction modifiers allow friction retention for extended-life performance and maintain the smooth lock-ups required by a wide variety of vehicles. Enhanced oxidation, thermal stability and corrosion resistance helps maintain year-round protection of the transmission components.

#### ***Puratech Multi-Vehicle Syn-Blend ATF* TYPICAL INSPECTION TESTS**

Density, g/cm <sup>3</sup> @ 15° C	0.865
Flash Point, C° (F°)	195 (384)
Viscosity, cP @ -40° C	13,000
Viscosity, cSt @ 40° C	34.0
Viscosity, cSt @ 100° C	7.1
Viscosity Index	178
Pour Point, C° (F°)	-45 (-49)
Color,	Red
Foam Test, ASTM D892	Pass
